

“THE ULTIMATE GUTTER SHIELDING SYSTEM”

Gutter Armor® is designed to eliminate problems that may occur when debris causes ice to fill your gutters. Gutter Armor® will help eliminate those problems.

Gutters are needed to control rainwater run-off around your house and foundation. When debris and ice clogs your gutters, they can't flow properly, causing moisture problems that can be expensive to repair. Gutter Armor® caps your existing gutters allowing only rainwater to enter. Your gutters stay free-flowing, virtually eliminating moisture problems to your fascia boards, basement and roofline saving you time, money and frustration.

“YOU’LL NEVER HAVE TO CLEAN YOUR GUTTERS AGAIN!”

Gutter Armor and it's exclusive pooling feature can handle heavy, extended periods of rain effectively. Tests show that Gutter Armor can handle rain falls in excess of the heaviest recorded amounts in United States history. The system operates on the principle of surface tension, the phenomenon that occurs as water clings to and follows the shape of the system into the gutters below. Leaves and debris blow off, keeping your gutters clean.

SPECIFICATIONS:

Width.....28.5”
 Length.....68.5”
 Height (with decoiler).....24”
 Weight.....320 lbs
 Coil Width (5” gutters).....5 5/8”
 (6” gutters).....6 3/8”
 Gauge.....032
 Power.....1 HP
 Speed.....40 FPM
 Warranty.....2 years

FEATURES AND ADVANTAGES:

- Compact design
- On-site seamless production
- Coil is available in 4 colors
- Fits 5” and 6” gutters
- Forms multiple widths
- Maintenance-free design
- Self-contained decoiler
- Fully driven forming station
- Quick ship program
- 2 year warranty
